ELECTRONIC TECHNICIAN – ST. MARY’S, PA

National Fuel is currently seeking an experienced Electronic Technician for an outstanding career opportunity at our Lamont Compressor Station. As part of the National Fuel team, the successful candidate will enjoy a challenging work environment with a strong and growing company. An Electronic Technician is responsible for the implementation and maintenance of electrical power circuits and equipment, control and automation systems, and electronic equipment used in pipeline systems, compressor stations, substations, as well as interconnect and measurement facilities.

PRIMARY RESPONSIBILITIES:

- Installation, inspection, calibration, and maintenance of electrical power circuits, control and automation systems, electronic equipment, measurement facilities, telemetering devices, programmable logic controllers (including Allen-Bradley), modems, transducers, fire and gas sensors, radio and satellite equipment, remote terminal units, computer interface equipment, cabling, and sensing devices used in natural gas transmission systems and compressor stations.
- Maintain low voltage equipment less than 600 volts, emergency power generation facilities, motor control and power distribution centers, variable frequency drives, SCADA and UPS systems, as well as lighting, solar panels, grounding, and lightning protection equipment.
- Work with multiple departments to maintain and improve the reliability of company facilities

MINIMUM QUALIFICATIONS:

- Have demonstrated experience and a thorough knowledge of NFPA National Electrical Code, single & three phase systems, digital & analog electronics, electronic test equipment, wiring methods and safety practices.
- Ability to install, troubleshoot, repair, and maintain cables, instrumentation, VFDs, motors, generators, circuit breakers, switchgear, and transformers as appropriate to the position.
- Have proven technical abilities, mechanical aptitude, the ability to quickly solve problems, and strong computer skills for diagnostics and installation of equipment.
- Be able to work outdoors in all types of weather and the ability to work in and around hazards and difficult to reach areas. The ability to successfully work independently as well as within a team environment is required.
- Possess an Associate’s Degree in Electronics or have equivalent work experience and a valid driver’s license.
- For approximately the first 12 months the shift will be Monday – Friday 8 a.m. – 4:30 p.m. for training purposes and once fully qualified the shift will be Monday – Friday from 3 p.m. – 11:30 p.m.
- Live within a reasonable commute to St. Mary’s or be willing to relocate. Candidates may be given 6 months from their hire date to permanently relocate.

The candidate will be provided with on-the-job training and must meet all qualifications of the job.
