INTEGRITY ENGINEER – ERIE, PA

National Fuel is currently seeking an Integrity Engineer for an outstanding career opportunity in our Engineering department located in Erie, PA. As a member of the National Fuel team, you will enjoy an exciting and challenging work environment where top performance is recognized and rewarded.

PRIMARY RESPONSIBILITIES:
- Management and field coordination of fitness-for-service and inline pipeline assessments using the latest industry technology
- Review and analysis of the natural gas transmission pipeline system to identify risk factors and threats to pipeline integrity
- Evaluate integrity assessment results and identify preventive and mitigative measures to address potential safety related conditions and reduce pipeline risk
- Develop and manage pipeline assessment and maintenance programs to maintain compliance with existing and new regulatory requirements
- Engineering and risk analysis of integrity related facility and operational data

MINIMUM QUALIFICATIONS:
- Bachelor's degree in Engineering
- Strong verbal and written communication skills, proven technical abilities and strong computer skills
- Exceptional time management and multi-tasking abilities
- The ability to analyze and interpret data and apply engineering principles to develop innovative solutions to real world problems
- Able to work independently as well as within a team environment

PREFERRED QUALIFICATIONS:
- Pipeline or project management experience
- Quality assurance or process safety experience
