SAFETY

#1

UTILITY SYSTEM

> **14,000** miles of pipeline

BEFORE YOU DIG!

8-1-1

Natural gas is naturally odorless and colorless.

A non-toxic odorant – **MERCAPTAN**

– is added to make it easier to detect a leak.

Mercaptan smells like rotten eggs.

Natural Fuel Gas Supply Corporation owns & operates

2,300 miles of pipeline

31 underground

natural gas storage areas
(4 are co-owned and operated)

1983 NFG established the Neighbor for Neighbor Heat Fund to assist customers with their heat bills.

11,000 grants to households throughout funds history.

4 BUSINESS SEGMENTS

- UTILITY
- PIPELINE & STORAGE
- GATHERING
- PRODUCTION

1821

Natural gas 1st drilled in Fredonia, NY.

INDUSTRY FIRST

Since 2005, National Fuel Foundation & employees have donated over **\$15 million** to charity.
